

# LOVE, SIMPLIFIED

## Practical habits to Creating the Ultimate Loving Relationship

Shmaya David is an obsessed man; obsessed with having the happiest loving relationship ever. After spending 34 years creating such a relationship with his first wife, Shmaya had to start over when she passed. His success in doing that convinced him of the universality of his approach to love and life, which he shares in **Love, Simplified**.

Shmaya's premise is that you can have a happy, stable, fulfilling, loving romantic relationship by cultivating a habit of love. Just as one forms habits to be successful in other areas of our lives, love is no different and needs to be worked at to ensure the deepest, most emotionally satisfying relationship.

Says Shmaya, *"If you desire to be an effective, loving person you have to form and manifest the right love habits...The breakthrough came when I had an epiphany. I suddenly realized that the same principles that create Olympic athletes, high flying CEOs, world renowned artists and self-made millionaires govern your success in love and your ability to create and maintain long-lasting happy relationships."*

In **Love, Simplified** you will find a new understanding of what love really is, and a set of practical, simple steps to make love bloom in your life and your relationship, now and forever. If you are in a relationship, whether it is new, old, great, good, mediocre or bad, the 10 Love Habits in **Love, Simplified** will help you make the changes that you need to rekindle or amp up your romantic connection.
